

Why small libraries matter

Public libraries in small towns do far more than lend books. They offer free internet access, tax help in the spring, and a quiet place to study after school. In many counties, the library is the only public building that stays open in the evening.

Funding has not kept pace. Between 2019 and 2025, the average branch lost about 12 percent of its budget after inflation, according to a recent state survey. Staff now cover more hours with fewer people.
